

Operating Instructions

The Meade[®] Handbox Holder

For use with Meade 16" RCX400 Telescopes

Introduction

The Handbox holder attaches to the base of your 16" RCX telescope and holds the Autostar handbox in a convenient position. The handbox holder is comprised of two parts: A bolt and a clamp (Fig. A).

To attach the Handbox Holder:

1. Slide the bolt through the hole in the wide end of the clamp.
2. Thread the bolt into the hole provided on the base of the RCX, but do not tighten yet (Fig. B).
Position clamp at an angle that is comfortable for you and then tighten the bolt to a firm feel.

If you have a question concerning use of the Meade **HANDBOX HOLDER**, call the Meade Instruments Customer Service Department at (800) 626-3233. Customer Service hours are 8:00 AM to 5:00 PM, Pacific Time, Monday through Friday.

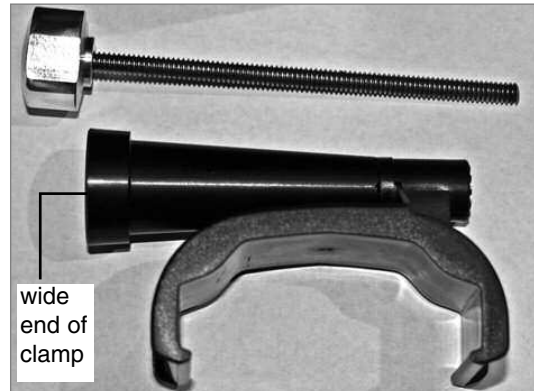

Fig. A: Handbox holder: The bolt and the clamp.

Fig. B: Thread the bolt through the wide end of the clamp and into the base of the RCX telescope.
